About Maths is Good for You

Maths is Good for You is a web site dedicated to the history of mathematics for secondary school age students. Its creation has been enabled by the Gatsby Charitable Foundation UK. You may use the material freely for educational purposes, research and private study but may not, for profit or any other purpose, reproduce or transmit it in any other form or by any means, or store it in any retrieval system of any nature without the written consent of the author. Requests should be addressed by e-mail to snezana@mathsisgoodforyou.com
